### Hooray! Blood Free of Impurities

**Eczema Gone! Acne, Tetters, Rash, Pimples, Carbuncles, Boils—Banished!**

S. S. S. Drives the Demon of Bad Blood Back to the Woods.

The under layer of skin is a fine network of tiny blood vessels in which the poisons of the body collect. S. S. S. works with remarkable activity. This is why S. S. S. is the best known blood purifier. It has such a positive action in the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or glandular activity to select from the blood or from this fine network of blood vessels in the skin, those elements which it requires for regeneration.

Thus, pimples, acne, eczema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin, is met with the antidotal effect of S. S. S. Under the influence of S. S. S. this fine network of blood vessels in the skin is constantly taking from the blood the nutrition required for healthy tissue, and the cause of disease is just constantly becoming removed, scattered and rendered harmless. These facts are more fully explained in a book on skin troubles sent by The Swift Specific Co., 190 Swift Bldg., Atlanta, Ga. You will find S. S. S. on sale at all drug stores. Get a bottle to-day and banish all skin afflictions.
